

# SCHU' S

Dave Schumann, General Manager  
Customer Relations Group

Well I hope everyone has enjoyed the summer and are getting ready for some cooler fall RV'ing. There have been some great opportunities with all the caravans and Region Rallies that have taken place since the International Rally, I hope you have had the opportunity to enjoy some of them.

## “This and That”

### New Label

Starting June 2<sup>nd</sup> 2008, all units released from production will have a new weight label adhered to the screen door. This label is mandated by the National Transportation Safety Administration.

Once released from production, each unit is placed on a scale for an exact UVW (unloaded vehicle weight). Once the UVW is determined, the exact cargo carrying capacity (CCC) is tabulated.

The exact CCC is tabulated without any fluids in the tanks. It does however include the weight of propane.

This new label replaces the existing label located on the interior of the wardrobe door.

### Sample Tag

RECREATION VEHICLE TRAILER CARGO CARRYING  
CAPACITY  
VIN: 1STJFYJ219J52341\*  
THE WEIGHT OF CARGO SHOULD NEVER EXCEED 811 Kg  
or 1,789 lbs  
CAUTION: A full load of water equals 169 kg of 373 lbs cargo @.

This label replaces the old label on inside of wardrobe door.

### Label on screen door.

### Newly Installed Airstream Scales

*continued on the next page*

### Need a Lift?

Here is a handy little gadget that was popular at the Rally in Bozeman. It is a handle that attaches to the main awning arm bar and gives a lot more leverage in extending your awning. It's a must if you don't have the strength or grip that you once had; as is in my case.

### **Zip Dee Lift Handle** — Airstream Part number 21085W    *2 handles per set*

Slides along the main arm bar, and by cam action, locks at any point along the way to help you quickly and efficiently raise the awning to the desired height. Can be purchased at online store at [www.airstream.com](http://www.airstream.com)

### **Pan America**

The new Airstream 34 foot Pan America trailer will start down the production line early this month. It will give the customer the ability to travel with all the comforts of home and still have a place in the rear to store cargo or your favorite toys. Comes with rear opening door and ramps; optional cabinets are available for cargo area.

*Original Proto Photos-production models may vary from photos.*

### **Airstream Interstate Sprinter 3500**

Airstream has begun shipping the all new Interstate 3500. Airstream has converted this Class B motorcoach with a Sprinter chassis into a luxury camper with seating for six and sleeping accommodations for two. Estimated 18 miles per gallon and a towing capacity of 5000 pounds adds even more travel versatility. Check out [www.airstream.com](http://www.airstream.com) for more details

3500 Daimler Chrysler Sprinter Van w/Unibody Construction  
Mercedes - 3.0 Liter Turbo Charged V6 Diesel  
280 FT/LB @ 1200-2400 RPM 154 H.P. @ 3400 RPM  
Mercedes - 5 Speed Automatic w/Overdrive

A fellow Airstreamer reported seeing the following bumper sticker while traveling from Bozeman, “So many Praire Dogs so few recipes”.

Have a great month and we will see you on down the road.
